Grant Process

Purpose

This outlines the process that is taken to apply for a grant and how the assessments are carried out.

When does the funding round open and close?

A funding round calendar is created for each financial year and available on the Council website. Applications are usually open for a six-week period opening in June. Applications received after the closing date or outside of a funding round will not be considered.

How do I apply for a grant?

All grant applications are submitted through our online grants' platform. Please refer to Instructions for applicants for detail.

Who assesses applications?

The Community Grants Committee assesses all applications. This committee is made up of Elected members. The Council establishes a Community Grants Committee at the beginning of each Triennium, with Terms of Reference that include the following:

- Delegations to meet to decide on the distribution of the Community Grants
- Elect a chairperson and a deputy chairperson
- Decisions by the Committee to be made by consensus; a vote only being taken if required confirming the consensus view. If votes are tied the chairperson will have a casting vote
- A requirement that all conflicts of interest must be declared by elected members, who then cannot take part in deliberations related to the conflict

The Committee will meet once a year to make allocation decisions, generally in August. It may meet more than once if funds are available

Administration and guidance are provided by Council officers.

How is your application assessed?

The Community Grants Committee reviews all applications and meet to assess and allocate funds. The application is assessed against the set criteria and priorities.

- The Committee may invite applicants to speak to their application.
- Where the Committee decides to make a grant, it may include conditions
- Where the Committee decides to decline an application, or to grant less funding than applied, it will specify its reasons.
- Decisions of the Committee will be reported to applicants as soon as possible following the Committee's decisions.

Terms and Conditions

- All applicants will have a bank account that is linked to the organisation applying for the funds. In the case where there is not an organisational bank account holder, applicants will need to have an umbrella organisation to act as the fund holder. Funds cannot be paid to a personal bank account.
- Groups or organisations seeking support to carry out projects or activities that an extension of the Council's own business will not be funded through the Local Community Grants Fund. In these cases, funding arrangements will be made through the Council's operations budgets.
- Projects/initiatives must be delivered within the financial year that they are received. If there is chance that the project/initiative will not be able to be delivered within the financial year that they are received in, application is to be made to the grants committee by 1 May to carry funding over. In certain circumstances this will be considered.
- Accountability for previous grant funding received must be submitted by 1 May before additional applications will be considered.
- Failure to spend the funds will result in a request for refund of granted funds.
